

BITUM

Nr. O-114

A strong, highly effective product for removing the heaviest dirt, bituminous mass and carbon deposits

Packaging:

- 25 L barrel
- 200 L barrel
- Another packaging on customer's request

Application:

All industry sectors, particularly well-suited for contamination in the metal industry. It removes the bituminous mass, soot, rust deposits, greases, oils, fuels and softens very difficult, persistent soils so that they are easy to remove.

Properties:

- intense smell,
- very high cleaning efficiency,
- removes the bituminous mass,
- chemically stable.

How to use:

- the product can be used in a sprayer or by immersion method;
- check before use whether it does not react with the cleaned material;
- use in well-ventilated rooms;
- do not use with open fire or on hot elements;
- spray on the cleaned object, wait 30 seconds and rinse thoroughly with water under pressure or wipe with a cloth;
- do not allow the product to dry on the cleaned object.

Technical data:

Colour	light yellow / colourless
Odour	strong, distinctive
pH	non-applicable
Freezing temperature	non-applicable
Flash point	< 23°C
Upper / lower explosive limit	19 – 1,4% obj.
Explosive properties	not explosive
Auto-ignition temperature	> 150°C
Density	0,80 – 0,92 g / cm ³ w 15°C
