

B-Force 1000

Nr. O-113

Water-dilutable, very efficient, safe industrial degreaser with fast and effective action

Packaging:

- 25 L barrel
- 200 L barrel
- Another packaging on customer's request

Application:

All industry sectors including the food industry. Particularly well-suited for contamination in the metal industry. Removes lubricants, oils, fuels, grease and softens difficult and persistent dirt so that it is easy to remove.

Properties:

- water-dilutable in the proportion of 1:100,
- pleasant smell,
- safe for the user, no need of personal protective equipment,
- very high concentrate efficiency,
- safe for all materials (e.g. aluminium, glass, etc.),
- for use in washers, scrubbers.

How to use:

- the product can be used in a sprayer or by immersion method;
- it reacts best with warm water;
- dilute the delivered product depending on the degree of soiling, proportions 1:0 - 1:100;
- spray on the cleaned object, wait 30 seconds and rinse thoroughly with water under pressure or wipe with a cloth;
- do not allow the product to dry on the cleaned object.

Technical data:

| | |
|----------------------|-----------------------|
| Colour | colourless |
| Odour | faint, soapy |
| pH | 10 |
| Freezing temperature | < 0°C |
| Flash point | non-applicable |
| Flammability | non-flammable |
| Explosive properties | does not show |
| Oxidising properties | does not show |
| Density | 1 g / cm ³ |
